Exercise 2: Upload an Excel File with a Data Model

Now, let's upload an Excel file containing a Data Model and a Power View Report.

1. Download and extract the the "[Lab 5 - USA.xlsx](#)" file. The file contain VanArsdel's USAsales. If you have a Microsoft Excel installed, you can open and explore the file (you don't have to).
2. Go to <http://www.powerbi.com> and sign in using your account.
3. Click **Get Data**, select **Files** and click **Get**. Select **Local file**, select the **Lab 5 - USA.xlsx** file, and select **Upload your Excel file to Power BI**. The Excel file is uploaded as a Dataset in Power BI service. Since this Excel file also contain a Power View report, the Power View report is converted to a Power BI report.
4. Go to the **Lab 5 - USA** Report.
5. Now, answer the following questions by reviewing the **Power View1** tab in the **Lab 5 - USA** Report.
