

Exercise 1: Upload Excel File with an

<u>Course</u> > <u>5. Working with Excel</u> > <u>Lab 5</u> > Excel Table

Exercise 1: Upload Excel File with an Excel Table

First, you will upload an Excel file containing an Excel table.

- 1. Download and extract the the "Lab 5 Canada.xlsx" file. The file contain VanArsdel's Canada sales. If you have a Microsoft Excel installed, you can open and explore the file (you don't have to).
- 2. Go to **http://www.powerbi.com** and sign in using your account.
- 3. Click **Get Data**, select **Files** and click **Get**. Select **Local file**, select the **Lab 5 Canada.xlsx** file, and select **Import Excel data into Power BI**. The Excel file is imported as a Dataset in Power BI service.
- 4. Go to the **Lab 5 Canada** Dataset.
- 5. Now, answer the following questions by creating visualizations using the skills you learned in the previous module.

Question1

1/1 point (graded)

What is the total revenue for Canada in 2014? (to two decimal places)

1674868.34	~
1674868.34	

Submit

You have used 2 of 2 attempts

Question 2

1/1 point (graded)
